

COURSES IN ULTRASONOGRAPHY

PG Diploma | PG Certificate | Fellowship | Certificate

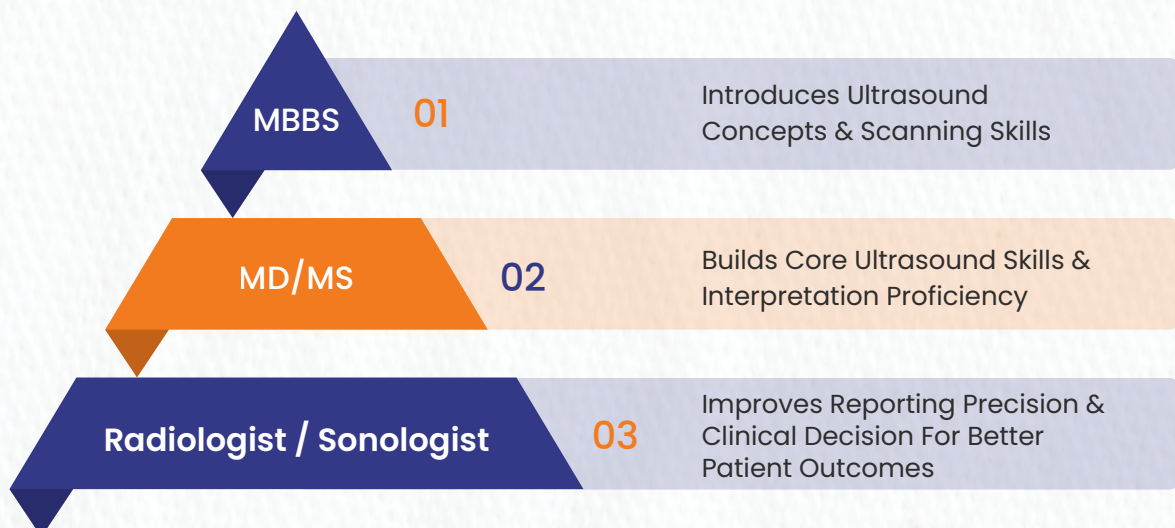

Disclaimer :

For guidance on your eligibility to practise and register for ultrasonography: The Pre-Natal Diagnostic Techniques (Regulation & Prevention of Misuse) Act, 1994 (Act No. 57 of 1994), and The Pre-Natal Diagnostic Techniques (Regulation & Prevention of Misuse) Amendment Act, 2002.

Courses Offered

01 	Post Graduation Diploma	02 	PG Certificate
03 	Fellowship	04 	Certificate Course

Target Audience

CPD Credits

Accreditation

Courses accredited for CPD credits, recognized by various professional bodies

Global Recognition

CPD credits are widely accepted internationally, showcasing your commitment to growth

Professional Development

Earn valuable credits to enhance your career prospects & maintain professional standing

PG Diploma Program

In Ultrasound [General & Advance]

1. General, Emergency & Point-of-Care Ultrasound

For Emergency Physicians, Intensivists & General Practitioners

Master the art of bedside imaging – the frontline diagnostic revolution that saves time, life, and uncertainty

Courses :

- **Emergency & Critical Care Ultrasound Essentials**

A complete foundation in FAST, eFAST, and hemodynamic assessment for emergency & ICU settings

- **Point-of-Care Ultrasound (POCUS) FocusClass**

Empowers clinicians to perform targeted imaging at the bedside with confidence and speed.

- **Prehospital Point-of-Care Ultrasound**

For paramedics and ER physicians – imaging before the patient reaches the hospital.

- **Abdominal Ultrasound BachelorClass**

Comprehensive hepatobiliary, renal, spleen, and bowel scanning techniques.

- **Lung Ultrasound MasterClass**

Master the detection of pneumothorax, pleural effusion, and interstitial syndromes.

 **Outcome :** Competency in pregnancy scanning & diagnostic POCUS for women's health

2. Obstetrics, Gynaecology & Fetal Imaging

For Obstetricians, Gynaecologists & Fetal Medicine Practitioners

From first-trimester viability to fetal growth and placental evaluation — visualize the journey of life with precision and compassion

Courses :

- **OB/GYN Ultrasound BachelorClass**

Covers fetal biometry, anomaly screening, and obstetric Doppler essentials.

- **OB/GYN POCUS Applications FocusClass**

Practical applications for emergency obstetric and gynaecological scenarios.

 **Outcome :** Competency in pregnancy scanning & diagnostic POCUS for women's health

3. Cardiac & Echocardiography Specialization

For Cardiologists, Physicians & Intensivists

Echocardiography is the poetry of motion within the heart — learn to read it fluently, from chamber quantification to advanced speckle tracking.

Courses :

- **Echo BachelorClass**

A foundation course for physicians entering echocardiography.

- **Echo MasterClass**

Deep dive into advanced echo techniques and clinical correlation.

- **Speckle Tracking MasterClass**

Understand myocardial strain and deformation imaging.

- **Adult Congenital Heart Disease BachelorClass**

Identify and interpret common congenital pathologies in adults.

- **Cardiac Filling MasterClass**

Assess preload, diastolic function, and hemodynamic performance.

- **Heart Chamber Quantification MasterClass**

Precise measurement protocols for left and right chamber volumes.

- **Right Heart MasterClass**

Dedicated course on RV anatomy, function, and pressure assessment.

Outcome : Build comprehensive diagnostic and interpretive expertise in adult echocardiography.

4. Musculoskeletal [MSK] Ultrasound

For Orthopaedicians, Sports Physicians & Physiotherapists

Ultrasound in motion — visualize joints, tendons, and muscles dynamically and diagnose what MRI often misses in movement.

Courses :

- **MSK Ultrasound BachelorClass**

Foundations of MSK anatomy and basic scan planes.

- **MSK Ultrasound of the Shoulder Joint**

Detailed evaluation of rotator cuff, labrum, and bursa.

- **MSK Ultrasound Foot and Ankle BachelorClass**

Covers ligament injuries, tendinopathies, and dynamic maneuvers

- **MSK Ultrasound Guided Injections MasterClass**

Hands-on procedural training in image-guided joint and soft-tissue interventions.

Outcome : Accurate diagnosis and procedural confidence for MSK and sports-related pathologies.

5. Regional Anaesthesia & Nerve Imaging

For Anaesthesiologists, Pain Physicians & Surgeons

Precision-guided anaesthesia — where anatomy meets control, and safety meets accuracy.

Courses :

- **Ultrasound Guided Regional Anaesthesia**
Covers peripheral nerve blocks and interfascial plane injections.
- **Neuromuscular Ultrasound Essentials**
Understand muscle and nerve imaging for diagnostics and interventions.

 **Outcome :** Elevate procedural safety and precision in pain & anaesthesia practice.

6. Vascular & Neck Imaging

For Radiologists, Surgeons & General Physicians

Decode the vascular labyrinth — from arteries of the neck to veins of the legs.

Courses :

- **Vascular Ultrasound – Lower Extremity BachelorClass**
Deep venous thrombosis, arterial flow, and peripheral vascular mapping.
- **Thyroid Ultrasound MasterClass**
Systematic approach to thyroid nodules, parathyroid, and cervical lymph nodes.

 **Outcome :** Develop high-level scanning & reporting skills for vascular and endocrine imaging.

Registration Fee : 25,000

[At the Time of Registration, Rest Paid in 4 Monthly Instalments]
Zero EMI Education Loan is also provided.

PG Diploma Fee : 175,000
Course Duration : 12 Months

PG Certificate Program

[General Ultrasound]

1. General, Emergency & Point-of-Care Ultrasound

For Emergency Physicians, Intensivists & General Practitioners

Master the art of bedside imaging – the frontline diagnostic revolution that saves time, life, and uncertainty

Courses :

- **Emergency & Critical Care Ultrasound Essentials**

A complete foundation in FAST, eFAST, and hemodynamic assessment for emergency & ICU settings

- **Point-of-Care Ultrasound (POCUS) FocusClass**

Empowers clinicians to perform targeted imaging at the bedside with confidence and speed.

- **Prehospital Point-of-Care Ultrasound**

For paramedics and ER physicians – imaging before the patient reaches the hospital.

- **Abdominal Ultrasound BachelorClass**

Comprehensive hepatobiliary, renal, spleen, and bowel scanning techniques.

- **Lung Ultrasound MasterClass**

Master the detection of pneumothorax, pleural effusion, and interstitial syndromes.

 **Outcome :** Gain competency in performing & interpreting real-time scans across emergency and primary care scenarios.

2. Obstetrics, Gynaecology & Fetal Imaging

For Obstetricians, Gynaecologists & Fetal Medicine Practitioners

From first-trimester viability to fetal growth and placental evaluation — visualize the journey of life with precision and compassion

Courses :

- **OB/GYN Ultrasound BachelorClass**

Covers fetal biometry, anomaly screening, and obstetric Doppler essentials.

- **OB/GYN POCUS Applications FocusClass**

Practical applications for emergency obstetric and gynaecological scenarios.

 **Outcome :** Competency in pregnancy scanning & diagnostic POCUS for women's health

3. Cardiac & Echocardiography Specialization

For Cardiologists, Physicians & Intensivists

Echocardiography is the poetry of motion within the heart — learn to read it fluently, from chamber quantification to advanced speckle tracking.

Courses :

- **Echo BachelorClass**

A foundation course for physicians entering echocardiography.

- **Echo MasterClass**

Deep dive into advanced echo techniques and clinical correlation.

- **Speckle Tracking MasterClass**

Understand myocardial strain and deformation imaging.

- **Adult Congenital Heart Disease BachelorClass**

Identify and interpret common congenital pathologies in adults.

- **Cardiac Filling MasterClass**

Assess preload, diastolic function, and hemodynamic performance.

- **Heart Chamber Quantification MasterClass**

Precise measurement protocols for left and right chamber volumes.

- **Right Heart MasterClass**

Dedicated course on RV anatomy, function, and pressure assessment.

 **Outcome :** Build comprehensive diagnostic and interpretive expertise in adult echocardiography.

Registration Fee : 25,000

[At the Time of Registration, Rest Paid in 3 Monthly Instalments]
Zero EMI Education Loan is also provided.

PG Certificate Fee : 125,000

Course Duration : 6 Months

PG Certificate Program

[Advance Ultrasound]

4. Musculoskeletal [MSK] Ultrasound

For Orthopaedicians, Sports Physicians & Physiotherapists

Ultrasound in motion — visualize joints, tendons, and muscles dynamically and diagnose what MRI often misses in movement.

Courses :

- **MSK Ultrasound BachelorClass**

Foundations of MSK anatomy and basic scan planes.

- **MSK Ultrasound of the Shoulder Joint**

Detailed evaluation of rotator cuff, labrum, and bursa.

- **MSK Ultrasound Foot and Ankle BachelorClass**

Covers ligament injuries, tendinopathies, and dynamic maneuvers

- **MSK Ultrasound Guided Injections MasterClass**

Hands-on procedural training in image-guided joint and soft-tissue interventions.

 **Outcome :** Accurate diagnosis and procedural confidence for MSK and sports-related pathologies.

5. Regional Anaesthesia & Nerve Imaging

For Anaesthesiologists, Pain Physicians & Surgeons

Precision-guided anaesthesia — where anatomy meets control, and safety meets accuracy.

Courses :

- **Ultrasound Guided Regional Anaesthesia**

Covers peripheral nerve blocks and interfascial plane injections.

- **Neuromuscular Ultrasound Essentials**

Understand muscle and nerve imaging for diagnostics and interventions.

 **Outcome :** Elevate procedural safety and precision in pain & anaesthesia practice.

6. Vascular & Neck Imaging

For Radiologists, Surgeons & General Physicians

Decode the vascular labyrinth — from arteries of the neck to veins of the legs.

Courses :

- **Vascular Ultrasound – Lower Extremity BachelorClass**

Deep venous thrombosis, arterial flow, and peripheral vascular mapping.

- **Thyroid Ultrasound MasterClass**

Systematic approach to thyroid nodules, parathyroid, and cervical lymph nodes.

 **Outcome :** Develop high-level scanning & reporting skills for vascular and endocrine imaging.

Registration Fee : 25,000

[At the Time of Registration, Rest Paid in 3 Monthly Instalments]
Zero EMI Education Loan is also provided.

PG Certificate Fee : 125,000

Course Duration : 6 Months

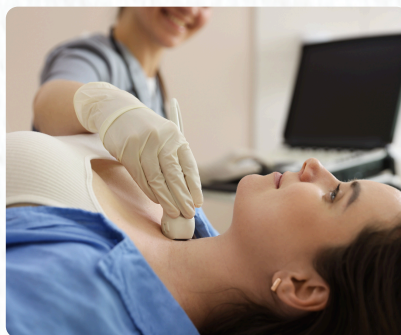

Course – 4

Certificate Course

in [any of below Speciality]

- General, Emergency & Point-of-Care Ultrasound
- Obstetrics, Gynaecology & Fetal Imaging
- Cardiac & Echocardiography Specialization
- Musculoskeletal [MSK] Ultrasound
- Regional Anaesthesia & Nerve Imaging
- Vascular & Neck Imaging

Registration Fee : 25,000

[At the Time of Registration, Rest Paid in 2 Monthly Instalments]
Zero EMI Education Loan is also provided.

Certificate Course Fee : 65,000

Course Duration : 3 Months

Levels of Training

- 01** Recorded Sessions by International Experts
- 02** Live Webinars & Interactive Doubt Clarification
- 03** Case Series on Important Pathologies
- 04** On Demand hands-on session
- 05** CME/CE access through evidence based medical tool
